

Room Booking Package

Datasheet

- > Quick and easy reservations.
- > Use your meeting rooms efficiently.
- > Reduce administration work.

Finding a meeting room for a spontaneous meeting can be a real challenge. Our room booking system will give you reliable real-time information on the availability of meeting rooms in your organisation.

Connect your room booking system to either a cloud-based solution or connect to a local server. You will get quick updates if a room has become available at short notice and can see details of meetings in progress. Scale the number of booking screens to fit the size of your organisation.

Our Room Booking Package will easily integrate with Microsoft Outlook and Google Calendar for convenient administration of appointments. Enjoy the full service from consulting and configuration of your system to delivery and even installation – all from one hand.

Together Information is Toshiba's vision for how people and organisations create, record, share, manage and display ideas and data.

It is based on our belief that the most successful organisations are those that communicate information in the most efficient way.

We make that possible through an integrated portfolio of industry-specific solutions, all of which reflect Toshiba's commitment to the future of the planet.
